Does your Pre-K child struggle with handwriting, coloring or cutting?

Try out our
Specialty Group -
Fine Motor Readiness
for Kindergarten

This Specialty Group, led by highly skilled representatives from the Occupational Therapy Department, will focus on the fine motor, visual motor, and visual perceptual skills necessary for Kindergarten activities including handwriting, coloring and cutting. Parents will receive training for approximately the first 10 minutes of each session to review what will be covered, provided with information on activities that can be done at home on a daily basis, and answer any questions they may have. A maximum of four participants per group will then work on their fine motor, visual motor, and visual perceptual skills. They will be taught specific techniques and helpful hints for coloring, cutting, pre-handwriting strokes and shapes, writing their name, the letters of the alphabet, and how to place letters appropriately on the line to write words. Help your child be extra prepared for Kindergarten by giving them the confidence they need to decrease their level of stress and be ahead of the game! This 1x/wk for 12 weeks, 45 minute Specialty Group, will help get your child ready!

To participate in this Specialty Group, you must agree to sign up to participate each session the Group is offered for the 12 weeks. The cost is $45 for each session. Payment is due on the first session of the month for the total number of sessions within that month. For example, if there are four sessions in one month, then $180 is due on the first session within that month. When paid upfront for the 12 week Specialty Group on the first session, the discounted fee is $500 instead of $540.

Two Group Times Offered: Monday's 4 – 4:45 pm and Tuesday's 3:45 – 4:30 pm
